§ 48.4161(b) [Reserved]

§ 48.4161(b)-1 Imposition and rates of tax; bows and arrows.

(a) *Imposition of tax.* Section 4161(b) imposes a tax on the sale of the following articles by the manufacturer, producer, or importer thereof:

(1) Any bow that has a draw weight of 10 pounds or more;

(2) Any arrow that measures 18 inches overall or more in length;

(3) Any part or accessory (other than a fishing reel) suitable for inclusion in or attachment to a bow or arrow described in subparagraph (1) or (2) of this paragraph; and

(4) Any quiver suitable for use with arrows described in subparagraph (2) of this paragraph.

(b) *Rate of tax.* The tax is imposed on the sale of articles enumerated in section 4161(b) and paragraph (a) of this section at the rate of 11 percent of the price for which such articles are sold. For the definition of the term "price", see section 4216 and the regulations thereunder.

(c) *Liability for tax.* (1) The tax imposed by section 4161(b) is payable by the manufacturer, producer, or importer making the sale. For determining who is the manufacturer, producer, or importer, see § 48.0-2(a)(4).

[T.D. 7328, 39 FR 36586, Oct. 11, 1974, as amended by T.D. 8043, 50 FR 32014, Aug. 8, 1985]

§ 48.4161(b)-2 Meaning of terms.

(a) For purposes of the tax imposed by section 4161(b), and unless otherwise expressly indicated:

(1) *Bows.* The term "bows" includes all articles made of flexible materials, that are designed to be equipped with a string and used for the propelling of arrows in the sport of archery (target shooting), or in hunting or fishing.

(2) *Arrows.* The term "arrows" includes all articles designed or constructed to be propelled by a bow in the sport of archery (target shooting), or in hunting or fishing. The overall length of an arrow is to be measured from the point of the tip or arrow-head to the end of the arrow nock. In the case of arrows sold by the manufacturer without heads, tips, or nocks, the overall length is to include the length of the shaft plus the length of the nock and head or tip that is normally used with the particular type of arrow shaft.

(b) *Parts and accessories.*—(1) *In general.* "Parts and accessories" for bows and arrows include all articles (other than fishing reels) suitable for inclusion in, or attachment to, a bow or arrow of the type described in section 4161(b)(1) and paragraph (a) of this section. Examples of parts and accessories for bows are bow handles, bow limbs, bow strings, bow string silencers, bow stabilizers, arrow rests, bow slings, bow sights, bow levels, bow tip protectors, brush buttons, camouflaged bow covers, and all other articles designed to be attached to or included in a bow to assist in aiming or propelling an arrow, or to protect the bow while in use. Example of parts and accessories for arrows are arrow shafts, nocks, tips, heads, head adapters, and feathers.

(2) *General purpose materials and articles.* General purpose materials and articles that are not specifically designed to directly improve the performance or appearance of bows or arrows, or to

§ 48.4161(b)-3

protect them while in use, are not considered to be “parts and accessories” for bows or arrows, even though such materials may be intended, after further processing, to be included in or attached to bows or arrows. An example of a nontaxable article that is designed for use with a bow, but is neither attached to a bow, nor serves a purpose directly related to the efficient use of a bow, is a carrying case for a bow. Examples of nontaxable general purpose materials or articles are glues and cements, feathers before they are prepared for use with arrows, and bowstring thread before it is processed into bowstrings. Arrow-shaft material is considered to be a taxable part for an arrow, unless the manufacturer, producer, or importer can establish that the particular material is unsuitable for use in the manufacture of arrows that are subject to the tax imposed by section 4161(b)(1)(B). In addition, the term “parts and accessories” does not include articles in the nature of expendable supplies, even though such articles are designed to be applied to, or used with, bows or arrows. Examples of such supply materials are bowstring wax, and archery powder.

(c) *Quivers*. The term “quivers” includes all articles, of whatever material made, that are designed to contain, and to provide ready access to, taxable arrows during the time an archer is engaged in target shooting, hunting, or fishing. The term does not include any article designed solely for storing or transporting arrows during times when the arrows are not in use.

§ 48.4161(b)-3 Use considered sale.

For provisions relating to the tax on use of taxable articles by the manufacturer, producer, or importer thereof, see section 4218 relating to use by a manufacturer considered a sale, and the regulations thereunder.

§ 48.4161(b)-4 Tax-free sales.

For provisions relating to tax-free sales of articles referred to in section 4161(b) see:

(a) Section 4221, relating to certain tax-free sales;

(b) Section 4222, relating to registration;

(c) Section 4223, pertaining to special rules relating to further manufacture; and

(d) Section 4225, relating to exemption of articles manufactured or produced by Indians;

and the regulations thereunder.

§ 48.4161(b)-5 Effective date.

The taxes imposed by section 4161(b) are effective with respect to sales made on and after January 1, 1975.

Subpart L [Reserved]

Subpart M—Special Provisions Applicable to Manufacturers Taxes

§ 48.4216(a)-1 Charges to be included in sale price.

(a) *In general*. The “price” for which an article is sold includes the total consideration paid for the article, whether that consideration is in the form of money, services, or other things. See § 48.0-2 (a) (5). However, for purposes of the taxes imposed under Chapter 32 certain collateral charges made in connection with the sale of a taxable article must be included in the taxable sale price, whereas others may be excluded. Any charge which is required by a manufacturer, producer, or importer to be paid as a condition of its sale of a taxable article and which is not attributable to an expense falling within one of the exclusions provided in section 4216 or the regulations thereunder is includible in the taxable sale price. It is immaterial for this purpose that the charge may be paid to a person other than the manufacturer, producer, or importer, or that it may be separately billed to the purchaser as a charge earmarked for expenses incurred or to be incurred in his behalf, such as charges for demonstration or display of the article, for sales promotion programs, or otherwise. With respect to the rules relating to exclusion (in the case of sales after December 31, 1960) of charges for local advertising of a manufacturer’s products, see section 4216(e) and § 48.4216(e)-1. In the case of sales on credit, a carrying, finance, or service charge is excludable from the sale price if it is reasonably
